LegalEdge – Refined PRD (with Portfolio Tracker)

Product Overview

LegalEdge is an AI-driven SaaS platform designed for venture capitalists, hedge funds, and retail investors. It tracks upcoming legislation, regulatory changes, and policy proposals to forecast their impact on stock sectors and companies. By integrating legislative data with stock performance indicators, LegalEdge offers predictive insights and portfolio recommendations.

Key Features

Legislative Tracking: real-time monitoring of bills and committee activity.

AI-Powered Forecasting using NLP to analyze legislation and market correlations.

Congressional Portfolio Tracker: monitors U.S. Congress trades for insider insights.

Market Opportunity Engine: suggests high-probability investments.

Multi-Jurisdiction Coverage: federal, state, and local levels.

Alerts & Notifications: customizable, real-time updates.

Expanded Congressional Portfolio Tracker: monitors financial trades of U.S. Congress members and correlates activity with pending legislation to highlight potential conflicts of interest or signals.
